

Projecto en MongoDB Atlas

Cluster M0

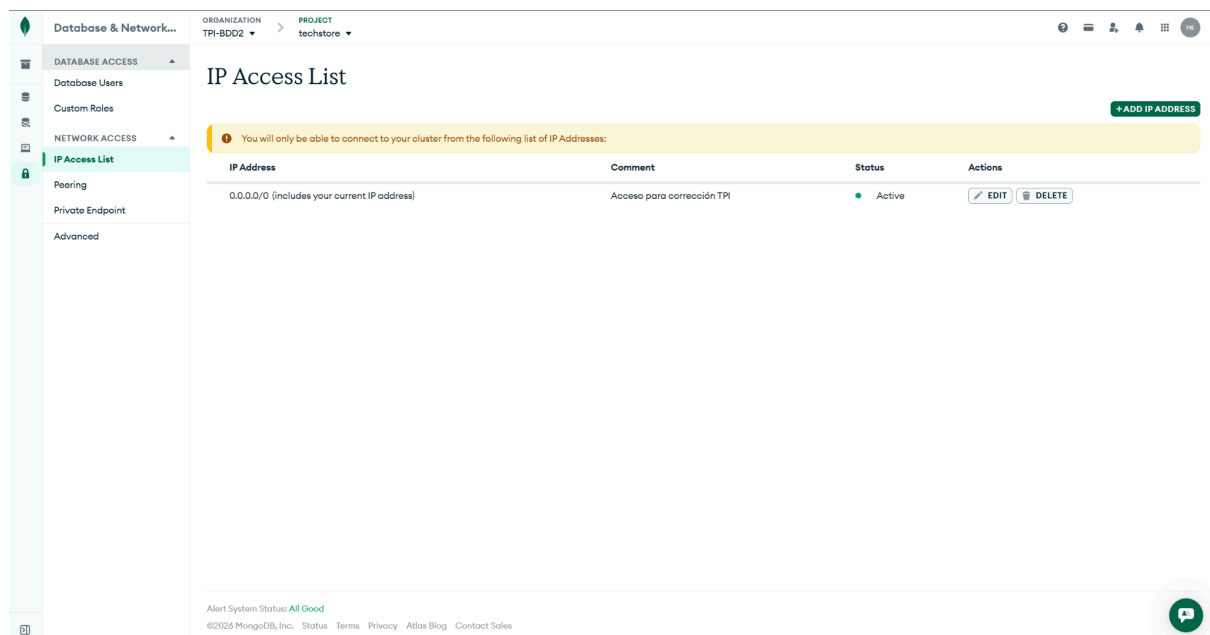

DB Admin

The screenshot shows the MongoDB Atlas interface for the 'techstore' project. The left sidebar contains navigation options: Project Overview, DATABASE (Clusters, Search & Vector Search, Data Explorer, Backup), STREAMING DATA (Stream Processing, Triggers), SERVICES (AI Models, Migration, Data Federation, Visualization), SECURITY (Security Quickstart, Project Identity & Access), Database & Network Access (selected), and Activity Feed. The main content area is titled 'Database Users' and features a table with columns: User, Description, Authentication Method, MongoDB Roles, Resources, and Actions. A single user, 'db_admin', is listed with SCRAM authentication and the 'atlasAdmin@admin' role. A '+ ADD NEW DATABASE USER' button is in the top right. The footer includes an alert system status 'All Good' and copyright information for MongoDB, Inc. 2026.

User	Description	Authentication Method	MongoDB Roles	Resources	Actions
db_admin		SCRAM	atlasAdmin@admin	All Resources	EDIT DELETE

Network Access

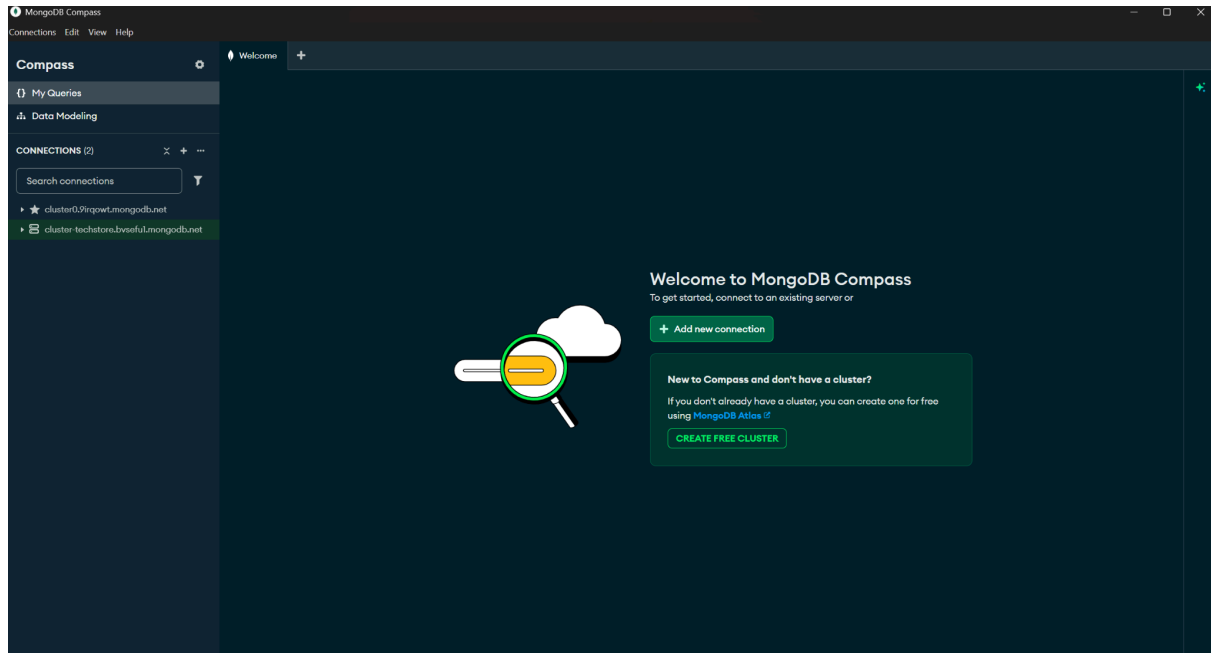

The screenshot shows the MongoDB Atlas interface for the 'techstore' project, specifically the 'IP Access List' page under 'Database & Network Access'. The left sidebar is the same as the previous screenshot, with 'IP Access List' selected. The main content area has a yellow warning banner stating: 'You will only be able to connect to your cluster from the following list of IP Addresses:'. Below this is a table with columns: IP Address, Comment, Status, and Actions. One entry is shown: '0.0.0.0/0 (includes your current IP address)' with the comment 'Acceso para corrección TPI' and status 'Active'. A '+ ADD IP ADDRESS' button is in the top right. The footer is identical to the previous screenshot.

IP Address	Comment	Status	Actions
0.0.0.0/0 (includes your current IP address)	Acceso para corrección TPI	Active	EDIT DELETE
